

Product Name: Sunrise

Type of Treatment: Seed Biopriming

Crop(s): tomato

Category: biological, 100% organic

Benefits (as measured, soil test):

Time to emergence: 2-3 days faster

Vigour: +44%

Usable Plants: +11%

Total Germination: +6%

Biomass build-up: +49%

Notes:

Sunrise contains a beneficial microbe which further improves seed quality in tomato while providing protection against pathogenic microbes.

Non-treated

Bioprimed ('Sunrise')

Use conditions:

Seed storability: seed must be kept at low temperature (<15°C) and low relative humidity (<30-35%) after treatment in order to maintain seed viability, since this treatment shortens its life-span.
